SENATOR SHERMAN.

He Talks on the Recent Elections and
Defeated Statesmen.

New York, Nov. 10.—Senator John
Sherman said yesterday to a *Tribune*
reporter: "We are quite satisfied with
the result of the election in Ohio. There
was only one weak spot in the state.
The defeat of Congressman Little is
much to be regretted. It is one thing
about which we feel badly. There has
been something down in Kentucky to
give us great satisfaction. The republi-
cans elected Wilson to congress from
the Louisville district. It is a great
victory and I think it has come to stay.
I think Louisville is going to keep up
with the times hereafter and march in
the step of the union.

"As to Hurd, there was great dissat-
isfaction with him in his district for other
reasons than his tariff views. They
thought he was not sufficiently well
identified with the interests of the dis-
trict. He was scarcely ever in Toledo
except about election time, so they
said. But the tariff was a great subject
of discussion in the canvass in that dis-
trict. I was there the Saturday night
before the election, and it was the only
question I touched upon.

"I do not look for a wide spread effect
on the tariff from the defeat of Hurd
and Morrison. This country is so large
that men come into prominence and
dip out of sight without making any
great stir."

THE STRIKE.

Five Thousand Men at Work in the Chi-
cago Houses.

CHICAGO, Nov. 10.—A large number
of men applied for work at the packing
houses this morning, and about 5,000
men are at work. The militia guards
were out as usual, and the approaches
to the yard were lined with pickets.

2:30 p. m.—An afternoon paper says
that the boycott has already been de-
clared by the general executive board of
the Knights of Labor, "and," said Mr.
Barry at noon today, "it begins on Ar-
mour's meats and other products. How
far we shall extend it as to other pack-
ers I cannot say yet."

At the Chicago stock yards, yesterday,
the receipts of cattle fell to 8,500 head,
and desirable beefs were 15 cents per
hundred higher than last week. Large
numbers of ordinary animals were
shipped eastward to be slaughtered.
There were 44,000 hogs on the market,
5,000 of which were taken by the four
local packers now operating.

AT ALBANY.

ALBANY, N. Y., Nov. 10.—Downey,
the only butcher in this city, who would
kill cattle for the dressed beef firms, has
refused to slaughter any more for them.
The agents of dressed beef houses are
buying live cattle at West Albany as in-
dividuals and having them killed for
them as such.

Weather Indications.

WASHINGTON, Nov. 10.—The weather
indications are as follows:
Ohio, Michigan and Indiana, light
rains, followed by fair weather, colder.

LAKE FURIES.

A Great Storm and Loss of Life and
Property.

FRANKFORT, Mich., Nov. 10.—The
gale continues unabated. Wreckage is
washing ashore at Point Betzy, showing
that a terrible marine disaster has oc-
curred. Captain Matthews, of the life
saving station, reports that his surfmen
picked up the top of a vessel cabin last
night, one of the largest sized vessels.
Nothing can be found to learn the name
of the vessel. A plank has been found
indicating she was an iron ore vessel.

The Crops.

WASHINGTON, Nov. 10.—The monthly
report of the department of agriculture
places the estimate of the corn crop at
twenty-two bushels to the acre, or a
total of 1,688,000,000 bushels. The
tobacco, it is estimated, will yield 485-
000,000 pounds.

President Cleveland and the cabinet
officers who accompanied him to Boston
returned to Washington last evening.

The collections of internal revenue
since the system was organized in 1862
has been sufficient to pay the national
debt at its highest figure and leave a
balance of over \$681,000,000.

Prisoners Escape from Jail.

MUNCIE, Ind., Nov. 10.—That it is no
difficult matter for inmates to escape
from Delaware county's new jail was

demonstrated again, when two prisoners,
Dr. William Gibson and Henry Wag-
ner, held for larceny, worked their way
out, and have, so far, eluded the pur-
suit of the officers. They secured two
iron bars with which they pried open
the iron door opening into the base-
ment. Then removing a window sash,
they had no difficulty in reaching the
outside.

An Unknown Dead Man Found.

St. Louis, Nov. 10.—A Cairo special
says: "The 'Sidney Dillon' landed their
barges three miles below St. Louis, last
night, owing to some trouble, and the
watchman slept on the bank. In the
morning he found he had been sleeping
beside a headless and footless corpse.
There was nothing by which to identify
the body.

Arrested for Criminal Negligence.

MILWAUKEE, Nov. 10.—A special from
Portage says the coroner's jury, in an
inquest on the dead of the railroad ac-
cident at Rio, found that death was
caused by the negligence of C. H. Wells,
who left the switch open. Wells has
been arrested.

BULGARIA.

A New Prince Elected to the Throne
Last Night.

SOFIA, Nov. 10.—The sobranje, at a
secret session, last evening, after a de-
bate which lasted three hours, decided
to elect Prince Waldemar, third son of
the king of Denmark, as successor to
Prince Alexander, on the throne of Bul-
garia. Prince Waldemar is twenty-
eight years old.

TRNOVA, Nov. 10.—A session of the
Sobranje to elect a successor to Prince
Alexander was held this morning. The
whole assembly rose in a body and elected
Waldemar by acclamation. The pub-
lic in the galleries did not participate in
the enthusiasm manifested by the depu-
ties and exhibited no approval of the
election.

TRNOVA, Nov. 10.—Captain Nabo-
koff, the Russian who led the recent re-
volt at Bourgas, has been con-
victed by the Bulgarian authorities for
causing an insurrection, and has been
sentenced to death. His fellow con-
spirators have been sentenced to fifteen
years imprisonment each.

ENGLAND.

She Proposes to Retain Her Hold on
Egypt.

PARIS, Nov. 10.—The statement made
by the marquis of Salisbury at the
mayor's banquet, in London, last night,
that England meant to remain in Egypt
until her work in that country was com-
pleted has made a profound impression in
French political and financial circles.

The *National*, the *France* and other
newspapers say they consider that the
speech settles the question of evacuation
and shows that England's determina-
tion is to make the occupation of Egypt
indefinite and protracted.

WINTER.

Cold Wave Predicted from Wash-
ington.

WASHINGTON, Nov. 10.—The signal
service announces the approach of a cold
wave. The temperature will fall 15 de-
grees within the next twenty-four hours.

BURNED.

A Boy Roasted Alive in Lafayette, In-
diana.

LAFAYETTE, Nov. 10.—A four-year-old
son of Titus Surface, living five miles
from this city, while playing with match-
es Monday, set fire to his clothes and
was burned badly. He died yesterday
morning.

AN EDITOR

Fatally Shoots Himself on the Grave
of His Wife.

HARTFORD, Conn., Nov. 10.—About
9:30 this morning the police found Jesse
B. Lord, formerly one of the editors of
the *Post*, but more recently and latterly
with the *Scientific American*, lying on
the grave of his wife in the old North
cemetery.

He had shot himself through the head
with a 32-calibre revolver. He was con-
veyed to the hospital where his wound
was pronounced fatal. He is about
fifty-five years old.

GEO. HUBER.

He is Asked to Account for Some \$53
Collected for Conductor
Harry Gardner.

During the progress of the recent St.
Paul's church fair a silver lantern and
clock was voted to the most popular con-
ductor. Among the names presented
for favors was that of Conductor Harry
Gardner. He started out in the contest
with thirty-six votes, and his friends
moved about and selected Geo. Huber,
who is a well known character, to work
up Mr. Gardner's chances and get some
money from his friends. Huber worked
all the politicians and citizens generally
until he collected something like \$53.
The contest between conductors closed,
but Mr. Gardner's vote only increased
to forty-two votes, and of course his
friends began to marvel on the absence
of Huber's bundle. This morning Mr.
Louis Fox and Mr. Gardner presented
the facts to Prosecutor Dawson, who
will send Mr. Huber's case to the grand
jury unless he accounts for himself.

WEEK OF PRAYER.

The Topics Suggested for Pious Thought
Each Day.

The annual week of prayer of the
Young Men's Christian association will
be observed in the R. R. Y. M. C. A.
rooms, commencing Sunday, Nov. 14,
at 3:30 p. m. Rev. T. J. Baehner will
conduct the services at that hour. Sub-
ject, "From Condemnation to Justi-
fication." Rom. iii: 19-26. The ser-
vices will be conducted by the different
churches of the city. The following
are the subjects for each evening of the
week.

Sunday evening, "From Condemna-
tion to Justification." Rom. iii: 19-26.
Monday, November 15, "From Self-
Will to Exile to Home." Luke xv: 11-24.
Tuesday, November 16, "From Dark-
ness to Light." Mark x: 46-52; Eph.
v: 8.

Wednesday, November 17, "From
Persecution to Prayer." Acts ix: 1-12.
Thursday, November 18, "From Loss
to Gain." Mark x: 28-30.
Friday, November 19, "From Inquiry
to Knowledge." Acts viii: 26-39.
Saturday, November 20, "A Mer-
chandise that is Better Than Silver."
Prov. iii: 13-26; Matt. xiii: 44-46.

Messenger Fotheringham.

St. Louis, Nov. 10.—By sharp prac-
tice Messenger Fotheringham was com-
mitted to jail last evening. He still in-
sists he is innocent of the express rob-
bery.

A New Ohio Judge.

COLUMBUS, Nov. 10.—The governor
appointed to the supreme bench to-day,
Judge Francis J. Deckman, of Cleve-
land, vice Johnson, resigned.

Mr. J. M. Kane is quite ill at his
home on West Berry street.

Frank Pantner and Ida Lawrence,
Andrew Ott and Mary E. Slemmer,
Lemuel Bailey and Martha Jane Howe
have been licensed to wed.

It was rumored this afternoon that
Gart Shober was dead, but happily it
proved untrue. Mr. Shober would en-
joy reading his obituary notices.

St. Paul Globe: "Did you go to the
cemetery?" asked Mrs. Duffell to Mrs.
Funeralgoer, referring to a recent
funeral in the neighborhood. "Yes,"
replied the person addressed. "How
natural he looked," exclaimed the first
speaker. "Just as if he was asleep."
"I hardly noticed anything. I never
enjoyed myself less in my life." "Why,
what was the matter?" "Well, it looked
very much as though we would have a
wind storm, and I left the windows
open at home, and I was so afraid it
would rain and spoil my new carpet
that I did not enjoy the funeral as I
should have done."

ONE of the curiosities of the animal
kingdom is the eulachon, or candle-
fish (*Thaleichthys pacificus*) of the
northeastern Pacific. It is about four-
teen inches long, resembles the smelt
in appearance, and is caught in large
quantities in the early spring. It is
the fattest of all known fishes, for
which reason its dried and smoked
flesh is highly esteemed as a warming
food for winter by the Indians, by
whom the oil is also drunk. So fat is
the fish that when dried it burns with
a bright flame until entirely consumed,
forming a candle much used among the
Indians, either with or without a wood-
en wick passed through the body.

WASHINGTON.

The Sentinel Correspondent Sends an
Interesting Letter from
the Capital.

WASHINGTON, Nov. 9, 1886.

The recent elections have caused great
surprise in political circles in Wash-
ington. It will be necessary to go back to
the year 1874 to find anything compar-
able in interest to the upheaval in con-
gressional districts in many of the states
this year. The control of the Fiftieth
congress should have been secured by
the party opposed to the administration,
according to the law of political forces,
and following the almost unbroken line
of precedents in our political history.
But the fact is that the democrats in
spite of losses sufficient to have given
the republicans the majority, have yet
made gains in such unlooked for places,
as to retain control of the house.

The orderly and peaceful manner,
too, in which the elections were con-
ducted in the southern states, with here
and there republican gains in congress-
men in that section, ought to bury for-
ever the last remnant of the bloody
shirt. Not a single complaint of intimid-
ation or violence has come from any
district, and Messrs. Blaine's and Sher-
man's occupation is consequently gone.

Politicians here are still talking about
the result of the elections, and it is in-
teresting to hear their various com-
ments. They all agree that politics are
uncertain. Some attribute democratic
losses to the fact that democrats have
not enough offices under the administra-
tion, while others hold that if they had
gotten fewer offices they would have
elected more congressmen. This last
idea is upon the ground that it is impos-
sible to dispense patronage to the satis-
faction of everybody. The only way to
be without enemies is to be without
power. The man who has no favors to
give makes no enemies, but he cannot
bestow patronage on the few without
making enemies of the many who ex-
pect and are disappointed.

Another common explanation of the
apathy among democratic voters is that
they thought they had sure a thing of it
and abstained from voting. The
latter is Speaker Carlisle's opinion with
regard to his own case. He says he has
frequently warned his constituents that
they would wake up some fine morning
and find some one else elected to con-
gress in his place. All on account of
their staying away from the polls.
"They seem to think," he added, "that
I am sure to be elected whether anybody
votes for me or not." It must be grati-
fying to the speaker to know of the sen-
timents expressed by republicans as well
as democrats when it was believed that
he had been defeated. Even ultra re-
publicans here acknowledge that his loss
to congress would be a national calam-
ity. He is such a broad, high minded
statesman that his political enemies can-
not fail to respect and revere him as an
exemplar. While he is a straight-out,
consistent party man, he deals honestly
and fairly with his opponents and all
they have even dared to charge against
him was the crime of being a democ-
rat.

Although a speaker for the fiftieth con-
gress will not be chosen for more than a
year, the canvass for it will actively be-
gin at the approaching session and con-
sequently it is a subject of immediate in-
terest. As the democrats will have a
safe working majority in that congress it
is certain Tom Reed, the republican
leader from Maine, will not name its
committees as was predicted before the
official counts came in.

Amid their losses the friends of "free
trade" take some consolation from the
fact that one of the most eminent of all
the revenue reformers has received an
endorsement at the hands of the people
of New York of which any man has rea-
son to feel proud. It is to be regretted
that such a man as Abram S. Hewitt
should be lost to the house of represen-
tatives. He was especially distinguished
for his clear and practical views and for
his readiness to accept reason able con-
cessions from opponents.

Mr. Hewitt will not resign his seat in
congress until some time in January,
and he hopes before that time to accom-
plish something toward much needed
legislation. The result of the election in
New York, he says, imposes upon the
democratic party to talk up the subject
of labor grievances and inaugurate such
reforms as will relieve the working peo-
ple of the unjust burdens that result
from reduction in their earnings. He
proposes to do all he can to bring about
an amelioration of these evils before he
resigns. It is a large contract for him
to undertake in a little less than a
month, but if Mr. Hewitt can sow some
healthy seed where it will take root and
induce congress to deal with the labor
question without allowing the methods
of the demagogue to prevail in what it
does, he will have done excellent work.

Daily Sentinel

WEDNESDAY, OCT. 10, 1886.

In five hundred years more we may develop a true national character, we may have a language of our own, and we may form an American race as distinct from the English or any European race as the Malay is distinct from the Hindoo. Then we can find and describe the typical American without difficulty. Now the search for him is as fruitless as it would be to search among the passengers in a street car for the type of race born and bred in street cars and nowhere else.—*The Liberator*

THE Philadelphia Record says: "Twenty-five years ago there was probably not a woman in Philadelphia worth \$500,000, and even a man millionaire was a curiosity. Nowadays estates footing up \$1,000,000 and more are being settled up almost every week or two, and the list of women who own millions is by no means insignificant." This simply measures the growth in prosperity of all American cities.

The land area of the United States, exclusive of Alaska, by the last census, covers 2,957,493 square miles, or 1,892,795,520 acres. Nearly half of this lies west of the 100th meridian, which has long been set down as the general boundary line between arid land, that needing artificial irrigation, and that receiving sufficient rainfall for cultivated crops. As recently shown in the *Prairie Farmer*, there is a good deal of soil west of this meridian that belongs to the latter class. Taking in those portions along the coast, in Oregon and Washington Territory, and other local regions, which have abundant rainfall, there are certainly not less than the odd 92,000,000 acres not to be accounted as arid. This explanation makes clear the following: In a paper read before the American Society of Civil Engineers, at its recent meeting in Denver, Mr. Walter H. Graves, C. E., estimated the arid region of the United States at nearly half of its entire area; or, in round number, about 900,000,000 acres. Of this he reckons about 280,000,000 acres as arable land—that is, land capable of being redeemed and utilized. Of these, about 32,000,000 acres have been already redeemed and converted into farming land by the art of irrigation—equal to 400,000 eighty-acre farms—capable of supporting a population of 5,000,000. In his enthusiasm he says, and perhaps truly: "The redemption of the 250,000,000 acres of arable land is only a question of time, the factors being capital and engineering." And this amount, he says, "means prosperous homes for 15,000,000 farming people."

In all ages the love of adventure has been strong in the human race. The same spirit that led the knights of the middle ages to go forth in defense of maidens who were imprisoned and guarded by mythical dragons, or in quest of the Holy Grail, now penetrates those who scale mountains, penetrate jungles, breast seas, and cross deserts. Undoubtedly this is an evidence that manliness and courage still hold prominent places in the minds of the people, and that the qualities which are exercised simply for glory would also be brought into play if self-sacrifice and principle were needed. But, unfortunately, many of the daring deeds which are chronicled to-day are conceived in a spirit of recklessness or foolhardiness, and do not challenge the admiration of any except those who are constantly craving for some morbid sensation. Intelligent people can admire the heroism of the explorer who goes into voluntary exile, turning his back on home and friends and daring privation and death so that new channels may be opened for the spread of commerce, or that of the missionary who seeks to plant the seeds of Christian civilization in the dark places of the earth which are full of the habitations of cruelty, or yet that of the scientist who will cross an unknown continent so that he may better watch the eclipse of the sun or the transit of a star. Such men the world delights to honor; but while there may be a feeling of regret for the two tourists who recently lost their lives in the descent of the Matterhorn it would be foolish to look upon them as heroes. Alpine travel has never yet, with all the loss of life it has entailed, given an important fact to a single department of knowledge. It has simply been a craze or "fad" by which no one has been benefited, and those who indulge in it after the repeated warnings that have been given are scarcely entitled to rank much higher than the foolish men who jump from high bridges or attempt to swim through whirlpools.

Catarrh

Is a very prevalent and exceedingly disagreeable disease, liable, if neglected, to develop into serious consumption. Being a constitutional disease, it requires a constitutional remedy like Hood's Sarsaparilla, which, acting through the blood, reaches every part of the system, effecting a radical and permanent cure of catarrh in even its most severe forms. Made only by C. I. Hood & Co., Lowell, Mass.

DANGEROUS DRUGS.

How to Control Effectually All Such Horrible Habits.

Rochester, N. Y., Post-Express.

A gentleman who has spent the summer abroad, said to our reporter, that the thing that impressed him most of all was the number of holidays one encounters abroad and the little anxiety the people display in the conduct of business affairs. "Men boast here," he said, "that they work for years without a day off; in Europe that would be considered a crime."

Mr. H. H. Warner, who was present at the time, said, "this is the first summer in years that I have not spent on the water. Been too busy."

"Then, I suppose you have been advertising extensively?"

"Not at all. We have always heretofore closed our laboratory during July, August and September, but this summer we have kept it running day and night to supply the demand, which has been three times greater than ever before in our history at this season."

"How do you account for this?"

"The increase has come from the universal recognition of the excellence of our preparations. We have been nearly ten years before the public and the sales are constantly increasing while our newspaper advertising is constantly diminishing. Why, high scientific and medical authorities, now publicly concede that our Warner's safe cure is the only scientific specific for kidney and liver diseases for all the many diseases caused by them."

"Have you evidence of this?"

"Abundance! Only a few weeks ago Dr. J. L. Stephens, of Lebanon, Ohio, a specialist for the cure of narcotic, etc. habits told me that a number of eminent scientific medical men had been experimenting for years, testing and analyzing all known remedies for the kidneys and liver, for, as you may be aware, the excessive use of all narcotics and stimulants destroys those organs, and until they can be restored to health the habits cannot be broken up! Among the investigators were such men as J. M. Hall, M. D., president of the state board of health of Iowa, and Alexander Neil, M. D., professor of surgery in the college of physicians and surgeons and president of the academy of medicine at Columbus, who, after exhaustive inquiry, reported that there was no remedy known to schools or to scientific inquiry equal to Warner's safe cure!"

"Are many persons addicted to the use of deadly drugs?"

"There are forty millions of people in the world who use opium alone, and there are many hundreds of thousands in this country who are victims of morphine, opium, quinine and cocaine. They think they have no such habit about them—so many people are unconscious victims of these habits. They have pains and symptoms what they call malaria and other diseases, when in reality it is the demand in their system for these terrible drugs, a demand that is caused largely by physicians' prescriptions which contain so many dangerous drugs, and strong spirits, and one that must be answered or silenced in the kidneys and liver by what Dr. Stephens says is the only kidney and liver specific. He also says that moderate opium and other drug eaters, if they sustain the kidney and liver vigor with that great remedy, can keep up these habits in moderation."

"Well, does not this discovery give you a new revelation of the power of safe cure?"

"No, sir; for years I have tried to convince the public that nearly all the diseases of the human system originate in some disorder of the kidneys or liver, and hence I have logically declared that if our specific were used, over ninety per cent. of these ailments would disappear. The liver and kidneys seem to absorb these poisons from the blood and become depraved and diseased."

"When these eminent authorities thus publicly admit that there is no remedy like ours to enable the kidneys and liver to throw off the frightful effects of all deadly drugs and excessive use of stimulants it is an admission of its power as great as any one could desire; for if through its influence alone the opium, morphine, quinine, cocaine and liquor habits can be overcome, what higher testimonial of its specific power could be asked for?"

"You really believe then, Mr. Warner, that the majority of diseases come from kidney and liver complaints?"

"I do! When you see a person moping and groveling about, half dead and half alive, year after year, you may surely put him down as having some kidney and liver trouble."

"The other day, I was talking with Dr. Fowler, the eminent oculist of this city, who said that half the patients who came to him for eye treatment were affected by advanced kidney disease. Now many people wonder why in middle life their eyesight becomes so poor. A thorough course of treatment with Warner's Safe Cure is what they need more than a pair of eye-glasses. The kidney poison in the blood always attacks the weakest part of the body; with some it affects the eyes; with others the

head; with others the stomach or the lungs, or rheumatic disorder follows, or neuralgia tears them to pieces, or they lose their powers of taste, smell, or become impotent in other functions of the body. What man would not give his all to have the vigor of youth at command?"

"The intelligent physician knows that these complaints are but symptoms; they are not the disorder, and they are symptoms not of disease of the head, the eye or stomach, or of virility, necessarily, but of the kidney poison in the blood and they may prevail and no pain occur in the kidneys."

It is not strange that the enthusiasm which Mr. Warner displays in his appreciation of his own remedy, which restored him to health when the doctors said he could not live six months, should become infectious and that the entire world should pay tribute to its power. For as Mr. Warner says, the sales are constantly increasing, while the newspaper advertising is constantly diminishing. This speaks volumes in praise of the extraordinary merits of his preparations.

The Indiana Women's Suffrage association will meet at Richmond, to-morrow, and the speakers will include Lucy Stone and Henry B. Blackwell, of Boston; May Wright Sewall, Mary E. Haggar, Mrs. G. Wallace and Hon. W. D. Fouke.

In the state reform school for boys there are 516 inmates, being much the largest number ever in the institution. During the year 211 were released on tickets. Since the opening in 1868 there have been admitted nearly 5,500. They have made 350,000 bricks during the past summer and added a great many improvements about the building.

Rumley Brothers' grain elevator, at Leesburg, Kosciusko county, was entirely destroyed by fire Saturday night, caused by tramps smoking in the building. Loss, \$3,000; insured for \$800 in the Phoenix insurance company. J. Lesh & Co., of Goshen, lost 50,000 feet of lumber, which was fully insured.

William Idle, a farmer, while driving from his place three miles south of Warsaw, to that city, was instantly killed under peculiar circumstances. While driving under a leaning tree, his head was struck by the tree and crushed. His neck was also broken. His body was not found until Saturday evening. Idle leaves a family, and was fifty-five years of age.

The terms of the various state officers expire at the following times: Clerk of the supreme court and attorney general, the 22d inst.; secretary, January 16, 1887; auditor, January 25; treasurer, February 8; superintendent of public instruction, March 15. After the last named date the only democratic officials about the elective state offices will be Governor Gray and Reporter Kerns, of the supreme court.

Catarrh in the Head

Catarrh is inflammation of the mucous membrane, attended with increased secretion. Thus catarrh may affect the head, throat, stomach, bowels, or any part of the body where the mucous membrane is found. But catarrh of the head is by far the most common, coming on so gradually that often its presence is not suspected till it has obtained a firm hold on its victim. It is caused by a cold, or a succession of colds, combined with Impure Blood.

When firmly established the disease is exceedingly disagreeable, causing flow from the nose, dryness of the throat, headache, loss of appetite, roaring and buzzing noises in the ears, etc. In Hood's Sarsaparilla may be found a prompt and permanent cure for catarrh. It purifies and enriches the blood, soothes and rebuilds the diseased membrane, and thus soon cures the disease. At the same time it refreshes and tones the whole system. The remarkable success of this peculiar medicine entitles it to your confidence. Give Hood's Sarsaparilla a trial.

"I am happy to state that I used Hood's Sarsaparilla for catarrh, with which I have been troubled many years, and received great relief and benefit from it. The catarrh was very disagreeable, especially in the winter, causing constant discharge from my nose, ringing noises in my ears, and pains in the back of my head. The effort to clear my head in the morning by hawking and spitting was painful. My grocer advised me to try Hood's Sarsaparilla, and it gave me relief immediately, while in time I was entirely cured. I am never without the medicine in my house, as I think it is worth its weight in gold." Mrs. G. B. GRAY, 1029 Eighth Street, N. W., Washington, D. C.

"I have used Hood's Sarsaparilla for catarrh with very satisfactory results. I have received more permanent benefit from it than from any other remedy I have ever tried." M. E. READ, of A. Read & Son, Wausau, Ohio.

ADVICE TO MOTHERS.

Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferers at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub wakes as "bright as a button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels, and is the best known remedy for diarrhoea, whether arising from teething or other causes. Twenty-five cents a bottle. Jan. 19-20dawl7

The First Keen Twinge.

As the season advances the pains and aches by which rheumatism makes itself known, are experienced after every exposure. It is not claimed that Hood's Sarsaparilla is a specific for rheumatism—we doubt if there is, or can be, such a remedy. But the thousands benefitted by Hood's Sarsaparilla, warrant us in urging others who suffer from rheumatism to take it before the first keen twinge.

"Fools rush in where Angels fear to tread." This is a very bitter remark by the poet, but justice is often exemplified; in no case more in point, when the danger is considered, than in the counterfeiting and adulteration of old, tried and standard medicines. That good, old remedy, the best in the world for inflammations, hemorrhages and all kindred diseases. Pond's Extract is being imitated. Pond's Extract is perfectly harmless, taken either internally, but beware of spurious imitations.

Sheriff Nelson has a letter from Mrs. Williams, dated San Francisco. She is seeking information about her husband, Albert S. Williams, alias Cone, who lived in Fort Wayne two years ago. It seems Albert has forgotten his marriage vows, and abandoned the girl he ought to love. Such are the uncertainties even of married life.

The water works trustees now propose to sink deep wells near the pumping house and hope to strike a vein of water like that flowing from the gas well. It is expected that each well cost \$500, and it might be well to ascertain whether such water can be used for domestic purposes, for steam boilers and general use. Water from deep wells is not al-ways good.

Mr. George D. Crane was down in Jay county yesterday on legal business. He congratulated Mr. William Fleming, who is a brother of Mr. T. J. Fleming, of this city, on his re-election to the office of county clerk. Mr. Crane says they have a great gas well there at a depth of 1,000 feet. It yields 100,000 feet in twenty-four hours, and they are piping it to Portland.

"Give us a long good rest on that vest pocket ticket story," remarked a gentle-man to a SENTINEL representative to-day. "The old and oft-repeated story that because a man goes to the polls and takes a ticket out of his vest pocket and votes it, it is scratched, don't signify anything of the sort. The reason why so many people go to the polls and draw their tickets from their pockets is be-cause they don't want to have the 'elec-tion worker' give them any advice. The time has come when the vest pocket ticket cannot and will not be questioned except by those who are questionable voters themselves."

LOVERS ELOPE.

Mr. Will Mannix and Miss Belle Bond Fly from Parental Restraints and Were Wedded at Detroit This Morning.

Again it is proven true that love laughs at locksmiths and stern papas and mammas, who would crush the fond dreams of young people. Mr. Will Man-nix and Miss Belle Bond met and loved as romance paints it. Miss Bond was quite young, Mr. Mannix, too, was starting in life, and it was hinted that the parental desire was to prolong the court-ship. The young lovers did not propose to have their life plans tampered with or postponed and clandestinely met. The sequel is known. They boarded the Wabash limited express last evening and then whirled into Detroit, where, at 8 o'clock this morning, the silken cords of matrimony bound the lovers to share their joys and sorrows in life's uncertain drama.

Their absence from home last night aroused, of course, family suspicions and telegrams from Mr. and Mrs. Mannix settled all doubts this morning. Miss Bond is the daughter of Mr. W. J. Bond, the dry goods man, and is pretty, pretty and winsome. Mr. Mannix is a son of Mr. Tom Mannix and is at present the trusted local salesman for Boltz & Oppenheimer, the cigar manufacturers. Will was deputy sheriff under Mr. Sheif-er and served as postmaster of the state senate at its last session. He has a good, big heart in him and is clever to a fault. Parental blessings await the young people and the congratulations of a wide circle of friends are in store for them.

About Hating.

Hate not. It is not worth while. Your life is not long enough to make it pay to cherish ill-will or hard thoughts toward any one. What if that man has cheated you; or that woman has played you false? What if this friend has forsaken you in your time of need; or that one having won your utmost confidence, your warmest love, has concluded that he prefers to consider and treat you as a stranger? Let it all pass. What differ-ence will it make to you in a few years, when you go hence to the "undiscov-ered country." All who treat you wrongly now will be more sorry for it then, than you, even in your deepest disappointment and grief, can be. A few more smiles, a few more tears, some pleasure, much pain, a little longer hur-rying and worrying in the world, some hasty greetings, and abrupt farewells, and life will be over, and the injurer and the injured will be led away, and ere long forgotten. Is it worth while to hate each other?

National Political Gossip.

Sunset Cox will again contest with Carlisle for the speakership honors in the fiftieth congress.

President Cleveland says he regarded civil service reform as the only trial in Tuesday's election, and feels that his position is supported by democratic gains in New York and Massachusetts where it was agitated.

Calculations as to the complexion of the next house vary somewhat, but they all agree that the democrats will have a small majority. There are five labor candidates elected.

If the election for president should be thrown into the house, nineteen states would vote for the republican candidate, having a majority of the congressional delegation. To these will probably be added Colorado and West Virginia, making twenty-one in all. The list includes California, Illinois Indiana, Iowa, Kan-sas, Maine, Massachusetts, Michigan, Nebraska, Nevada, New Jersey, New York, Ohio, Oregon, Pennsylvania, Rhode Island, Vermont, Virginia and Wisconsin. New Hampshire is a tie.

Dr. Dinnen, Otto Klunkenberg and Byron Hattersley went to Kankakee this afternoon on a duck slaughtering expedition.

Irma, the bright little five-year-old daughter of Mr. and Mrs. James Doyle, died yesterday afternoon at 3 o'clock, after a brief attack of brain fever. The funeral will occur to-morrow morning at 9:30 from the family residence at No. 23 Hough street. The services will be at the Cathedral at 10 o'clock.

What They Would Do.

For several days last week the peni-tentiary officials were figuring upon the uncertainty of things in general, and politics in particular, especially when they thought that the state legislature had gone republican and they must move next March. So they began brushing up on their old occupations and picking out "soft snaps" for them-selves. Here is the chosen occupation and chief aim of each, as the Michigan City Dispatch has it:

Dick Wolfe intended to try to succeed Powderly.

Luke Fleming was going to Allen county to see where that 4,000 demo-cratic majority has gone to.

Warden Murdock was going back to Lafayette with his two Jersey cows, an increase of one in eight years.

Talk of little hatchets! Why, we use nothing smaller than large sized broad axes, regular guillotines, and we use little hatchets for kindling wood. With our keen, bright broad axes always sharp, (we never allow it to get dull and nasty,) we have cut the prices on ladies' First quality rubbers to 25 cents. Is the Election Over?

Well, it seems as if the politicians have not heard of it yet, judging from the amount of wild talking indulged in by some of them, but such is always the case, that after the voting has been done and the result does not please everybody, that is if wrangling means any-thing, and the fellow that was defeated strives to reverse the slate, or attempts to make his friends believe he was the most popular man on the ticket. He got left all the same, and remains at home to join the throng who buy their Shoes at Vordermark's, the sign of the Big Red Boot.

SENATOR SHERMAN.

He Talks on the Recent Elections and Defeated Statesmen.

New York, Nov. 10.—Senator John Sherman said yesterday to a Tribune reporter: "We are quite satisfied with the result of the election in Ohio. There was only one weak spot in the state. The defeat of Congressman Little is much to be regretted. It is one thing about which we feel badly. There has been something down in Kentucky to give us great satisfaction. The republicans elected Wilson to congress from the Louisville district. It is a great victory and I think it has come to stay. I think Louisville is going to keep up with the times hereafter and march in the step of the union."

"As to Hurd, there was great dissatisfaction with him in his district for other reasons than his tariff views. They thought he was not sufficiently well identified with the interests of the district. He was scarcely over in Toledo except about election time, so they said. But the tariff was a great subject of discussion in the canvass in that district. I was there the Saturday night before the election, and it was the only question I touched upon."

"I do not look for a wide spread effect on the tariff from the defeat of Hurd and Morrison. This country is so large that men come into prominence and dip out of sight without making any great stir."

THE STRIKE.

Five Thousand Men at Work in the Chicago Houses.

CHICAGO, Nov. 10.—A large number of men applied for work at the packing houses this morning, and about 5,000 men are at work. The militia guards were out as usual, and the approaches to the yard were lined with pickets.

2:30 p. m.—An afternoon paper says that the boycott has already been declared by the general executive board of the Knights of Labor, "and," said Mr. Barry at noon to-day, "it begins on Armstrong's meals and other products. How far we shall extend it as to other packers I cannot say yet."

At the Chicago stock yards, yesterday, the receipts of cattle fell to 6,500 head, and desirable beefs were 15 cents per hundred higher than last week. Large numbers of ordinary animals were shipped eastward to be slaughtered. There were 14,000 hogs on the market, 6,000 of which were taken by the four local packers now operating.

AT ALBANY.

ALBANY, N. Y., Nov. 10.—Downy, the only bullock in this city, who would kill cattle for the dressed beef firms, has refused to slaughter any more for them. The agents of dressed beef houses are buying live cattle at West Albany as individuals and having them killed for them as such.

Weather Indications.

WASHINGTON, Nov. 10.—The weather indications are as follows: Ohio, Michigan and Indiana, light rains, followed by fair weather, cooler.

LAKE FURIES.

A Great Storm and Loss of Life and Property.

FRANKFORT, Mich., Nov. 10.—The gale continues unabated. Wreckage is washing ashore at Point Stuy, showing that a terrible marine disaster has occurred. Captain Matthews, of the life saving station, reports that his surfmen picked up the top of a vessel cabin last night, one of the largest sized vessels. Nothing can be found to learn the name of the vessel. A plank has been found indicating she was an iron ore vessel.

The Crops.

WASHINGTON, Nov. 10.—The monthly report of the department of agriculture places the estimate of the corn crop at twenty-two bushels to the acre, or a total of 1,683,000,000 bushels. The tobacco, it is estimated, will yield 485,000,000 pounds.

President Cleveland and the cabinet officers who accompanied him to Boston returned to Washington last evening. The collections of internal revenue since the system was organized in 1862 has been sufficient to pay the national debt at the highest figure and leave a balance of over \$581,000,000.

Prisoners Escape from Jail.

MUSKOGEE, Ind., Nov. 10.—That it is no difficult matter for inmates to escape from Delaware county's new jail was

demonstrated again, when two prisoners, Dr. William Gibson and Henry Wagner, held for larceny, worked their way out, and have, so far, eluded the pursuit of the officers. They secured two iron bars with which they pried open the iron door opening into the basement. Then removing a window sash, they had no difficulty in reaching the outside.

An Unknown Dead Man Found.

St. Louis, Nov. 10.—A Cairo special says: "The 'Sidney Dillon' landed their barges three miles below St. Louis, last night, owing to some trouble, and the watchman slept on the bank. In the morning he found he had been sleeping beside a headless and footless corpse. There was nothing by which to identify the body."

Arrested for Criminal Negligence.

MILWAUKEE, Nov. 10.—A special from Portage says the coroner's jury, in an inquest on the dead of the railroad accident at Mio, found that death was caused by the negligence of C. H. Wells, who left the switch open. Wells has been arrested.

BULGARIA.

A New Prince Elected to the Throne Last Night.

SOFIA, Nov. 10.—The sobranje, at a secret session, last evening, after a debate which lasted three hours, decided to elect Prince Waldemar, third son of the king of Denmark, as successor to Prince Alexander, on the throne of Bulgaria. Prince Waldemar is twenty-eight years old.

THURNOVA, Nov. 10.—A session of the Sobranje to elect a successor to Prince Alexander was held this morning. The whole assembly rose in a body and elected Waldemar by acclamation. The public in the galleries did not participate in the enthusiasm manifested by the deputies and exhibited no approval of the election.

RUSOVA, Nov. 10.—Captain Nabokoff, the Russian who led the recent revolt at Bourgas, has been convicted by the Bulgarian authorities for causing an insurrection, and has been sentenced to death. His fellow conspirators have been sentenced to fifteen years imprisonment each.

ENGLAND.

She Proposes to Retain Her Hold on Egypt.

PARIS, Nov. 10.—The statement made by the marquis of Salisbury at the lord mayor's banquet, in London, last night, that England meant to remain in Egypt until her work in that country was completed has made a profound impression in French political and financial circles. The National, the France and other newspapers say they consider that the speech settles the question of evacuation and shows that England's determination is to make the occupation of Egypt indefinite and protected.

WINTER.

Cold Wave Predicted from Washington.

WASHINGTON, Nov. 10.—The signal service announces the approach of a cold wave. The temperature will fall 15 degrees within the next twenty-four hours.

BURNED.

A Boy Roasted Alive in Lafayette, Indiana.

LAFAYETTE, Nov. 10.—A four-year-old son of Thos. Surface, living five miles from this city, while playing with matches Monday, set fire to his clothes and was burned badly. He died yesterday morning.

AN EDITOR

Fatally Shoots Himself on the Grave of His Wife.

HARTFORD, Conn., Nov. 10.—About 9:30 this morning the police found James B. Lord, formerly one of the editors of the Post, but more recently and latterly with the Scientific American, lying on the grave of his wife in the old North cemetery.

He had shot himself through the head with a 32-calibre revolver. He was conveyed to the hospital where his wound was pronounced fatal. He is about fifty-five years old.

GEO. HUBER.

He is Asked to Account for Some \$43 Collected for Conductor Harry Gardner.

During the progress of the recent St. Paul's church fair a silver lantern and clock was voted to the most popular conductor. Among the names presented for favor was that of Conductor Harry Gardner. He started out in the contest with thirty-six votes, and his friends moved about and selected Geo. Huber, who is a well known character, to work up Mr. Gardner's chances and get some money from his friends. Huber worked all the politicians and citizens generally until he collected something like \$53. The contest between conductors closed, but Mr. Gardner's vote only increased to forty-two votes, and of course his friends began to marvel on the absence of Huber's booty. This morning Mr. Louis Fox and Mr. Gardner presented the facts to Prosecutor Dawson, who will send Mr. Huber's case to the grand jury unless he accounts for himself.

WEEK OF PRAYER.

The Topics Suggested for Pious Thought Each Day.

The annual week of prayer of the Young Men's Christian association will be observed in the R. R. Y. M. C. A. rooms, commencing Sunday, Nov. 14, at 3:30 p. m. Rev. T. J. Hecker will conduct the services at that hour. Subject, "From Condemnation to Justification." Rom. iii: 10-26. The services will be conducted by the different churches of the city. The following are the subjects for each evening of the week.

Sunday evening, "From Condemnation to Justification." Rom. iii: 19-26. Monday, November 15, "From Self-Will to Obedience." Luke xvi: 11-24. Tuesday, November 16, "From Darkness to Light." Mark x: 46-52; Eph. v: 8.

Wednesday, November 17, "From Persecution to Prayer." Acts ix: 1-12. Thursday, November 18, "From Loss to Gain." Mark x: 28-30. Friday, November 19, "From Inquiry to Knowledge." Acts viii: 26-39. Saturday, November 20, "A Merchandise that is Better Than Silver." Prov. iii: 13-26; Matt. xiii: 41, 46.

Messenger Fotheringham.

St. Louis, Nov. 10. By sharp practice Messenger Fotheringham was committed to jail last evening. He still insists he is innocent of the express robbery.

A New Ohio Judge.

COLUMBUS, Nov. 10.—The governor appointed to the supreme bench to-day, Judge Francis J. Deekman, of Cleveland, vice Johnson, resigned.

Mr. J. M. Kane is quite ill at his home on West Berry street.

Frank Painter and Ida Lawrence, Andrew Oil and Mary E. Steamer, Lemuel Bailey and Martha Jane Howe have been licensed to wed.

It was rumored this afternoon that Gert Shober was dead, but happily it proved untrue. Mr. Shober would enjoy reading his obituary notices.

St. Paul, Glouc. "Did you go to the cemetery?" asked Mrs. Duffin to Mrs. Panonigra, referring to a recent funeral in the neighborhood. "Yes," replied the person addressed. "How natural he looked," exclaimed the first speaker. "Just as if he was asleep." "I hardly noticed anything. I never enjoyed myself less in my life." "Why, what was the matter?" "Well, it looked very much as though we would have a wind storm, and I left the windows open at home, and I was so afraid it would ruin and spoil my new carpet that I did not enjoy the funeral as I should have done."

One of the curiosities of the animal kingdom is the catfish, or mudfish (Ictalurus nebulosus) of the northwestern Pacific. It is about fourteen inches long, resembles the small in appearance, and is caught in large quantities in the early spring. It is the fattest of all known fishes, for which reason its dried and smoked flesh is highly esteemed as a warming food for winter by the Indians, by whom the oil is also drunk. So fat is the fish that when dried it burns with a bright flame until entirely consumed, forming a candle much used among the Indians, either with or without a wooden wick passed through the body.

WASHINGTON.

The Sentinel Correspondent Sends an Interesting Letter from the Capital.

WASHINGTON, Nov. 9, 1886.

The recent elections have caused great surprise in political circles in Washington. It will be necessary to go back to the year 1874 to find anything comparable in interest to the upheaval in congressional districts in many of the states this year. The control of the Fifth congress should have been secured by the party opposed to the administration, according to the law of political forces, and following the almost unbroken line of precedents in our political history. But the fact is that the democrats in spite of losses sufficient to have given the republicans the majority, have yet made gains in such unlooked for places, as to retain control of the house.

The orderly and peaceful manner, too, in which the elections were conducted in the southern states, with here and there republican gains in congressmen in that section, ought to bury forever the last remnant of the bloody shirt. Not a single complaint of intimidation or violence has come from any district, and Messrs. Blaine's and Sherman's occupation is consequently gone.

Politicians here are still talking about the result of the elections, and it is interesting to hear their various comments. They allege that politics are uncertain. Some attribute democratic losses to the fact that democrats have not enough offices under the administration, while others hold that if they had gotten fewer offices they would have elected more congressmen. "This last idea is upon the ground that it is impossible to dispense patronage to the satisfaction of everybody. The only way to be without enemies is to be without power. The man who has no favors to give makes no enemies, but he cannot bestow patronage on the few without making enemies of the many who expect and are disappointed."

Another common explanation of the apathy among democratic voters is that they thought they had sure a thing of it and abstained from voting. The latter is Speaker Carlisle's opinion with regard to his own case. He says he has frequently warned his constituents that they would wake up some fine morning and find some one else elected to congress in his place. All on account of their staying away from the polls. "They seem to think," he added, "that I am sure to be elected whether anybody votes for me or not." It must be gratifying to the speaker to know of the sentiments expressed by republicans as well as democrats when it was believed that he had been defeated. Even ultra republicans here acknowledge that his loss to congress would be a national calamity. He is such a broad, high minded statesman that his political enemies cannot fail to respect and revere him as an exemplar. While he is a straight-out, consistent party man, he deals honestly and fairly with his opponents and all they have even dared to charge against him was the crime of being a democrat.

Although a speaker for the fifth congress will not be chosen for more than a year, the canvass for it will actively begin at the approaching session and consequently it is a subject of immediate interest. As the democrats will have a safe working majority in that congress it is certain Tom Reed, the republican leader from Maine, will not name his committees as was predicted before the official counts came in.

Amid their losses the friends of "free trade" take some consolation from the fact that one of the most eminent of all the revenue reformers has received an endorsement on the hands of the people of New York of which any man has reason to feel proud. It is to be regretted that such a man as Abram S. Hewitt should be lost to the house of representatives. He was especially distinguished for his clear and practical views and for his readiness to accept reason also concessions from opponents.

Mr. Hewitt will not resign his seat in congress until some time in January, and he hopes before that time to accomplish something toward such needed legislation. The result of the election in New York, he says, imposes upon the democratic party to talk up the subject of labor grievances and inaugurate such reforms as will relieve the working people of the worst burdens that result from reduction in their earnings. He proposes to do all he can to bring about an amelioration of these evils before he resigns. It is a large contract for him to undertake in a little less than a month, but if Mr. Hewitt can now some healthy seed where it will take root and induce congress to deal with the labor question without allowing the methods of the demagogue to prevail in what it does, he will have done excellent work.

Mr. J. H. Jones, agent of the Pittsburg road at Warsaw, is employing men for Ammon & Co., at Chicago. They must be labeled "non union." It is not known that the Chicago packers are hiring men here, but it is probable.

Handy night some one entered the clothing store of Ashbacher Bros., at Bluffton, and stole \$25.00 out of the cash drawer, besides several articles of clothes and overcoats. The Fort Wayne officers were asked to look out for the rogues.

Four engines were turned out of the Pittsburg shops Saturday. One was a new class "T" tank, and the others, eight-wheel Boomer engines for service on the Crestline and Chicago divisions. The Washab people sent out a handsome pony engine.

At the Barry Street M. E. church, tonight, the pastor desires to meet all the ladies of the church, for the purpose of arranging the preliminaries for the church fair, beginning November 24, also a Thanksgiving dinner on the 25th. A reception of members will follow.

Some monster fish are being caught in the rivers here now and the weather is pleasant for the sport, and yet how different it used to be. On November 10, 1850, snow fell to the depth of two feet, and the rivers were frozen over. After the freeze several weeks of splendid weather followed.

Mr. Lot Dickson, for the past ten years a popular passenger conductor on the Pittsburg road, yesterday handed in his resignation to take effect on the 15th inst. Mr. Dickson intends to remove his family to Indianapolis, where he will embark in the storage and transportation business with his father.

The local Jany electric light company has been annoyed of late by the frequent breaks of its stationary engines, and now a monster 500 horse power machine is being constructed for the city works at the Base shops. In the meantime, the company expects to repair their street lamps and give better public service. They are now strutting wires to the Pittsburg railroad shops, where thirty-two electric lamps are to be hung up to enable the artisans to labor at night. The sparks are now in place in the copper, boiler and machine shops.

Mrs. H. O. Crosby is quite sick. Mr. Fred O. Reitz went to Toledo last night.

Invitations have been received in this city to the marriage of Miss Leila, daughter of Mayor M. H. Kidd, of Washab, to Mr. T. A. Nottger, of Anthony, Kan. Mr. Nottger was formerly a resident of North Manchester, and studied law in the office of Col. R. B. Robertson, in this city. He was admitted to the bar here.

Rev. Bishop Dwenger last Sunday completed his annual tour of the diocese. Since May 2, besides attending several of the district conferences of his clergy at various places, he has officially visited fifty-three churches, dedicated three new churches, and administered confirmation to 2,958 persons, and preached in every church he visited.

Sheriff Nelson has a letter from Mrs. Williams, dated San Francisco. She is seeking information about her husband, Albert E. Williams, alias Cope, who lived in Fort Wayne two years ago. It seems Albert has forgotten his marriage vows, and abandoned the girl he ought to love. Such are the uncertainties even of married life.

The water works trustees now propose to sink deep wells near the pumping houses and hope to strike a vein of water like that flowing from the gas well. It is expected that each will cost \$500, and it might be well to ascertain whether such water can be used for domestic purposes, for steam boilers and general use. Water from deep wells is not always good.

Mr. George D. Grace was down in Jay county yesterday on legal business. He congratulated Mr. William Fleming, who is a brother of Mr. T. J. Fleming, of this city, on his re-election to the office of county clerk. Mr. Grace says they have a great gas well there at a depth of 1,000 feet. It yields 100,000 feet in twenty-four hours, and they are plugging it to Portland.

"Give us a long good rest on that vest pocket ticket story," remarked a gentleman to a BARNUM representative today. "The old and oft-repeated story that because a man goes to the polls and takes a ticket out of his vest pocket and votes it, it is scratched, don't signify anything of the sort. The reason why so many people go to the polls and draw their tickets from their pockets is because they don't want to have the 'election worker' give them any advice. The time has come when the vest pocket ticket cannot and will not be questioned except by those who are questionable voters themselves."

LOVERS ELOPE.

Mr. Will Mannix and Miss Belle Bond Fly from Parental Restraints and Were Wedded at Detroit This Morning.

Again it is proven true that love laughs at locksmiths and stern papas and mammas, who would crush the fond dreams of young people. Mr. Will Mannix and Miss Belle Bond met and loved as romances paints it. Miss Bond was quite young, Mr. Mannix, too, was starting in life, and it was hinted that the parental desire was to prolong the courtship. The young lovers did not propose to have their life plans tampered with or postponed and clandestinely met. The sequel is known. They boarded the Washab limited express last evening and then whirled into Detroit, where, at 8 o'clock this morning, the silken cords of matrimony bound the lovers to share their joys and sorrows in life's uncertain drama.

Their absence from home last night aroused, of course, family suspicions and telegrams from Mr. and Mrs. Mannix settled all doubts this morning. Miss Bond is the daughter of Mr. W. J. Bond, the dry goods man, and is pretty, pretty and winsome. Mr. Mannix is a son of Mr. Tom Mannix and last present the trusted local salesman for Bolts & Oppenheimer, the cigar manufacturers. Will was deputy sheriff under Mr. Sheriff and served as postmaster of the state senate at the last session. He has a good, big heart in him and is clever to a fault. Parental blessings await the young people and the congratulations of a wide circle of friends are in store for them.

About Hating.

Hate not! It is not worth while. Your life is not long enough to make it pay to cherish ill-will or hard thoughts toward any one. What if that man has offended you, or that woman has played you false? What if this friend has forsaken you in your time of need; or that one having won your utmost confidence, your warmest love, has concluded that he prefers to consider and treat you as a stranger? Let it all pass. What difference will it make to you in a few years, when you go hence to the "undiscovered country." All who beat you wrongfully now will be more sorry for it then, than you, even in your deepest disappointment and grief, can be. A few more smiles, a few more tears, some pleasure, much pain, a little longer hurrying and worrying in the world, some busy greetings, and abrupt farewells, and life will be over, and the injured and the injured will be led away, and ere long forgotten. Is it worth while to hate each other?

National Political Gossip.

Street Cox will again contest with Garfield for the speakership honors in the fifth congress.

President Cleveland says he regarded civil service reform as the only trial in Tuesday's election, and feels that his position is supported by democratic gains in New York and Massachusetts where it was agitated.

Calculations as to the complexion of the next house vary somewhat, but they all agree that the democrats will have a small majority. There are five labor candidates elected.

If the election for president should be thrown into the house, nineteen states would vote for the republican candidate, having a majority of the congressional delegation. To these will probably be added Colorado and West Virginia, making twenty-one in all. The list includes California, Illinois, Indiana, Iowa, Kansas, Maine, Massachusetts, Michigan, Nebraska, Nevada, New Jersey, New York, Ohio, Oregon, Pennsylvania, Rhode Island, Vermont, Virginia and Wisconsin. New Hampshire is a tie.

Dr. Dinsen, Otto Klinkenberg and Byron Hatterley went to Kankakee this afternoon on a duck slaughtering expedition.

Irene, the bright little five-year-old daughter of Mr. and Mrs. James Doyle, died yesterday afternoon at 3 o'clock, after a brief attack of brain fever. The funeral will occur to-morrow morning at 9:30 from the family residence at No. 23 Hough street. The services will be at the Cathedral at 10 o'clock.

What They Would Do.

For several days last week the pontifical officials were figuring upon the uncertainty of things in general, and politics in particular, especially when they thought that the state legislature had gone republican and they must move next March. So they began brushing up on their old occupations and picking out "soft snags" for themselves. Here is the chosen occupation and chief aim of each, as the Michigan City Dispatch has it:

Dick Wolfe intended to try to succeed Powderly.

Luke Fleming was going to Allen county to see where that 4,000 democratic majority has gone to.

Warden Murchuck was going back to Lafayette with his two Jersey cows, an increase of one in eight years.

Talk of little hatchets! Why, we use nothing smaller than large sized broad axes, regular guillotines, and we use little hatchets for kindling wood. With our keen, bright broad axes always sharp, (we never allow them to get dull and rusty,) we have cut the prices on ladies' first quality rubbers to 25 cents. These goods are perfectly smooth, free from blisters or imperfections and are not seals gotten out for the occasion. Our big axe has cut the price of men's first quality rubbers, hosiery with Roy's Protection Toe to \$2.25. These are the best goods. They are better goods than any other store sells for \$2.50. Is the Election Over?

Well, it seems as if the politicians have not heard of it yet, judging from the amount of wild talking indulged in by some of them, but such is always the case, that after the voting has been done and the result does not please everybody, then the election is called again; that is if wrangling means anything, and the fellow that was defeated strives to remove the slate, or attempts to make his friends believe he was the most popular man on the ticket. He got left all the same, and remains at home to join the throng who buy their shoes at Vordermark's, the sign of the Big Red Boot.
